Owner & Designer	Jim Higgins
General Manager	Tom Kleiner
Concept	Described by the Owner as a "1940's supper club and cocktail lounge on the verge of the 1950's". Established in 1990 Club Lucky is a casual Italian neighborhood restaurant that was conceived as the next generation of Chicago icons like Club Lago and Gene & Georgetti's. The atmosphere is casual, portions are generous and the prices are reasonable. Club Lucky seats 175 people and is open for lunch Wednesday thru Friday, and dinner 7 nights a week.
Restaurant Design	You enter through a 1950's-tech cocktail lounge area, complete with Rich Red Naugahyde Booths, a long Chicago Bar and a barrel ceiling. Other authentic touches: oversized porthole windows, and an array of antique stainless steel martini shakers behind a round-mirrored, black Formica-topped bar, seating 35. Up three steps is a fork that leads to a 140 seat dining room on the right, and a private room (The Club Room) seating 35 on the left. Both share the same clean, simple design components: red, black and cream print draperies, silk-screened in a neoconstructive design by a local Bucktown artist; brick walls painted at wainscoting level with a black lozenge design; lighting fixtures that resemble satellites in orbit; Formica-topped freestanding tables; red oversized Naugahyde booths and flecked linoleum tile in a harlequin pattern.
